SUBJECT INDEX

- Acceptance
 - and family caregiving in Thailand for seriously mentally ill, 50-51
- Acculturation
 - association with depression among Korean immigrants, 217-223
- Activity limitation
 - and depression in older African Americans, 6-7
- Addiction
 - to smoking among Korean American men, 37-40
- Addiction education
 - effect on nursing students' beliefs toward persons with alcohol problems, 150-157
- Adolescents
 - Taiwanese female, relationship among stressors, learned resourcefulness and depression, 133-139
- Adults
 - with serious mental illness, in community-based psychiatric rehabilitation program, barriers to community integration, 125-131
- Advanced practice psychiatric nurses
 - factors influencing role delineation and titling
 - ANCC examination, 111-113
 - education, 109-110
 - graduate education, 112-113
 - health care delivery, 108
 - managed care organizations, 108
 - primary mental health care, 108-109
 - registered
 - and psychiatrists, prescriptive practices of, and medication adherence in split versus integrated therapy for depression, 256-262
 - as psychotherapists, 81-88
- African Americans
 - men, infected with HIV, sexual orientation as predictor of depression among, 236-240
 - older, in outpatient rehabilitation program, prevalence of depression among, 3-8
- Age
 - influence on smoking behavior of Korean American men, 35-37, 39-40
- Aggression
 - Taiwanese psychiatric nurses' anxiety, cognition, and attitudes towards management of, 141-148
- Alcohol abuse
 - effect of addiction education on nursing students' beliefs toward persons with, 150-157
- American Nurses Credentialing Center (ANCC)
 - nurse practitioner examination, influence on role delineation and titling, 111-113
- American Psychiatric Nurses Association (APNA)
 - certification for psychiatric nurses, 103-104 (Letter)
- Americans
 - negative self-description and depression among, cultural influence, 93-99
- Anxiety
 - of Taiwanese psychiatric nurses, towards managing patients' aggression, 141-148
- Archives of Psychiatric Nursing*
 - editor's last column, 105 (Editorial)
 - increased number of submissions of letters to the editor, 43 (Editorial), 101-102 (Letters)
 - Launching a Velvet Revolution in Psychiatric-Mental Health Nursing (Editorial), 203-204
 - mental health and societal disasters, 243-244
 - New Beginnings (Editorial), 159
- Assaultive environment, *see* Workplace violence
- Attitudes
 - and values, and beliefs, of Irish trained psychiatric nurses, 210-215
 - of nursing students toward mental health nursing and consumers, in relation to career preferences, 184-192
 - of Taiwanese psychiatric nurses towards managing patients' aggression, 141-148
- Auditory Hallucination Subscale of the Psychotic Symptom Rating Scales (AH-PSYRATS)
 - assessment of verbal auditory hallucinations, 59-60, 65-66
- Auditory hallucinations, among schizophrenic inpatients at a Veteran's Hospital in Taiwan, self-care symptom management for, 194-198
- Beck Depression Inventory
 - in relation to negative self-description, 95-99
 - measuring outcomes of group therapy for female survivors of childhood sexual abuse with chronic mental illness, 178-180
 - sexual orientation as predictor of depression among HIV-infected African American men, 236-240
- Beck Depression Inventory-II (BDI-II)
 - postpartum depression in previously infertile women during transition from pregnancy, 276-279
- Beliefs
 - and values, and attitudes, of Irish trained psychiatric nurses, 210-215
- Borderline personality disorder
 - life situations, and suffering, 163-165
 - psychiatric care and, 165-168
- Brain functions
 - patient education on, role of nurses, 1-2 (Editorial)
- Brief Psychiatric Rating Scale (BPRS)
 - assessment of verbal auditory hallucinations, 62-68
- Buddhism
 - influence on family caregiving for seriously mentally ill in Thailand, 44-55
- Career preferences
 - of nursing students, in relation to preparedness and attitudes toward mental health nursing and consumer, 184-192
- Caregiving
 - for seriously mentally ill, in Buddhist Thai family, 44-55
 - caregiving themes, 47-52
- Center for Epidemiologic Studies—Depression Scale (CES-D)
 - comparative study of postpartum depression in abused and nonabused women, 285
 - postpartum depression in previously infertile women during transition from pregnancy, 276-279

- Certification
 - for psychiatric nurses by the American Psychiatric Nurses Association (APNA), 103-104 (Letter)
- Child
 - combining quantitative and qualitative measures of parental grief on death of, 245-254
- Childbearing Health Questionnaire (CHQ)
 - comparative study of postpartum depression in abused and nonabused women, 285
- Childhood sexual abuse
 - with chronic mental illness, outcomes of group therapy for female survivors of, 176-182
- Chronic mental illness
 - tools for family history assessment by psychiatric nurses
 - ecomap, 119-120
 - genogram, 117-119
 - pedigree analysis, 120-122
- Clinical Dementia Rating (CDR)
 - in diagnosis of mild cognitive impairment in Hispanic Americans, limitations of, 207
- Clinical nurse specialists (CNS)
 - in psychiatric-mental health (PMH), as psychotherapists for obsessive-compulsive disorder, 81-88
- Clozapine treatment
 - prevalence of diabetes mellitus after, 30-34
- Cognition
 - of Taiwanese psychiatric nurses, towards managing patients' aggression, 141-148
- Cognition disorders
 - mild cognitive impairment (MCI) in Hispanic Americans, 205-208
- Cognitive function
 - and depression in older African Americans, 6
- Community-based psychiatric rehabilitation program
 - barriers to community integration for seriously mentally ill adults in, 125-131
- Community integration
 - barriers to, for seriously mentally ill adults in community-based psychiatric rehabilitation program, 125-131
- Compassion
 - and family caregiving in Thailand for seriously mentally ill, 48-49
- Compliance therapy
 - for medication adherence in psychosis, 71
- Consumers
 - of mental health care, relation of career preferences to students' attitudes toward, 184-192
- Counseling
 - by peers, for substance abuse in rural women with HIV infection, 10-16
- Critical thinking
 - design and evaluation of an online teaching strategy in an undergraduate psychiatric nursing course, 268-269
- Culture
 - influence on negative self-description and depression, 93-99
- Death
 - of a child, combining quantitative and qualitative measures of parental grief on, 245-254
- Depot neuroleptics treatment
 - prevalence of diabetes mellitus after, 30-34
- Depression
 - among HIV-infected African American men, sexual orientation as predictor of, 236-240
 - among Korean immigrants, factors associated with, 217-223
 - among older African Americans in outpatient rehabilitation measures, 5-6
 - and stress
 - sense of belonging and, 19, 21-27
 - social support and, 20-27
 - spousal support and, 20-27
 - assessment with Geriatric Depression Scale (GDS), 5-8
 - in relation to negative self-description and culture, 93-99
 - Beck Depression Inventory, 95-96
 - in relation to stressors, and learned resourcefulness, among Taiwanese female adolescents, 133-139
 - medication adherence in split versus integrated therapy for, and comparison of prescriptive practices of psychiatrists and advanced practice registered nurses, 256-262
 - postpartum
 - in abused and nonabused women, comparative study of, 281-288
 - in previously infertile women during transition from pregnancy, 273-279
 - prevalence among older African Americans in outpatient rehabilitation program, 3-8
- Diabetes mellitus
 - prevalence after clozapine or depot neuroleptics treatment, 30-34
- Disasters, societal
 - and mental health, 243-244 (Editorial)
- Ecomap
 - for family history assessment in chronic mental illness, 119-120
- Edinburgh Postnatal Depression Scale (EPDS)
 - comparative study of postpartum depression in abused and nonabused women, 285-286
- Education, graduate
 - influence on role delineation and titling of advanced practice psychiatric mental health nurse practitioners, 112-113
- Education, nursing
 - influence on role delineation and titling of advanced practice psychiatric mental health nurse practitioners, 109-110, 112
- Education, undergraduate nursing
 - design and evaluation of an online teaching strategy in, 264-272
 - effect of addiction education on nursing students' beliefs toward persons with alcohol problems, 150-157
- Elderly
 - African Americans, in outpatient rehabilitation program, prevalence of depression among, 3-8
- Electronic monitoring
 - use in visual feedback therapy for medication adherence in psychosis, 72-78
- Emotional abuse
 - comparative study of postpartum depression in abused and nonabused women, 281-288
- Errata, 202

- Evidence-based practice
and health insurance coverage, in relation to mental health services, 102-103 (Letter)
- Family caregiving
for seriously mentally ill, in Buddhist Thai family, 44-55
- Family history assessment
in chronic mental illness, tools used by psychiatric nurses
ecomap, 119-120
genogram, 117-119
pedigree analysis, 120-122
- Female
Taiwanese adolescents, relationship among stressors, learned resourcefulness and depression, 133-139
- Functional status
and depression in older African Americans, 6
- Funding
government, for medical and mental health care services for veterans, 200-201 (Letter)
- Genogram
for family history assessment in chronic mental illness, 117-119
- Geriatric Depression Scale (GDS)
in assessment of depression among older African Americans, 5-8
- Global Deterioration Scale
in diagnosis of mild cognitive impairment in Hispanic Americans, limitations of, 207
- Government funding
for medical and mental health care services for veterans, 200-201 (Letter)
- Grief
of parents on death of a child, combining quantitative and qualitative measures of, 245-254
- Group problem solving
design and evaluation of an online teaching strategy in an undergraduate psychiatric nursing course, 268-269
- Group therapy
for female survivors of childhood sexual abuse with chronic mental illness, outcomes, 176-182
- Hallucinations
auditory, among schizophrenic inpatients at a Veteran's Hospital in Taiwan, self-care symptom management for, 194-198
verbal auditory, assessment of, 58-68
Auditory Hallucination Subscale of the Psychotic Symptom Rating Scales (AH-PSYRATS), 59-60, 65-66
Brief Psychiatric Rating Scale (BPRS), 62-68
Inventory of Voice Experiences (IVE), 61-68
- Health
influence on smoking behavior of Korean American men, 37-40
- Health care
mental, students' attitudes toward consumers of, in relation to career preferences, 184-192
- Health care delivery
influence on role delineation and titling of advanced practice psychiatric mental health nurse practitioners, 108
- Health care services
medical and mental, for veterans, government funding, 200-201 (Letter)
- Health insurance coverage
and evidence-based practice, in relation to mental health services, 102-103 (Letter)
- Heterosexuality
as predictor of depression among HIV-infected African American men, 236-240
- Hispanic Americans
mild cognitive impairment (MCI) in, 205-208
clinical progression of, 207-208
- HIV infection
peer counseling for substance abuse in rural women with, 10-16
sexual orientation as predictor of depression among African American men with, 236-240
- HIV Sign and Symptom Checklist for Persons with HIV Disease
sexual orientation as predictor of depression among HIV-infected African American men, 236-240
- Homosexuality
as predictor of depression among HIV-infected African American men, 236-240
- Hyperglycemia
prevalence after clozapine or depot neuroleptics treatment, 30-34
- Immigrant population
Korean, factors associated with depression among, 217-223
- Index of Spouse Abuse (ISA)
comparative study of postpartum depression in abused and nonabused women, 286
- Infertile women
previously, depression during transition from pregnancy to postpartum in, 273-279
- Inpatients
with schizophrenia at a Veteran's Hospital in Taiwan, self-care symptom management for auditory hallucinations among, 194-198
- Integrated therapy
versus split therapy for depression, and comparison of prescriptive practices of psychiatrists and advanced practice registered nurses, medication adherence in, 256-262
- Inventory of Voice Experiences (IVE)
assessment of verbal auditory hallucinations, 61-68
- Ireland
study of psychiatric nurses' attitudes, values, and beliefs, 210-215
- Japanese
negative self-description and depression among, cultural influence, 93-99
- Korean Americans
men, personal factors influencing smoking behavior, 35-40
- Korean immigrants
factors associated with depression among, 217-223

- Learned resourcefulness
and stressors, in relation to depression, among Taiwanese female adolescents, 133-139
- Learning
design and evaluation of an online teaching strategy in an undergraduate psychiatric nursing course, 268
- Life situations
and suffering, in borderline personality disorder, 163-165
psychiatric care and, 165-168
- Managed care organizations
influence on role delineation and titling of advanced practice psychiatric mental health nurse practitioners, 108
- Marital Satisfaction Scale (MSS)
postpartum depression in previously infertile women during transition from pregnancy, 276-279
- Maternal-infant relationship
significance of maternal depression on, 275-276
- Medical health care services
for veterans, government funding, 200-201 (Letter)
- Medical illnesses
number of, and depression in older African Americans, 6
- Medication
number of, and depression in older African Americans, 6
- Medication adherence
in psychosis
compliance therapy for, 71
psychoeducation, 71
visual feedback therapy, 70-78
use of electronic monitoring in, 72-78
in split versus integrated therapy for depression, and comparison of prescriptive practices of psychiatrists and advanced practice registered nurses, 256-262
- Men
African Americans infected with HIV, sexual orientation as predictor of depression among, 236-240
Korean Americans, personal factors influencing smoking behavior of, 35-40
- Mental health care
and societal disasters, 243-244 (Editorial)
for veterans, government funding, 200-201 (Letter)
in relation to health insurance coverage and evidence-based practice, 102-103 (Letter)
primary, influence on role delineation and titling of advanced practice psychiatric mental health nurse practitioners, 108-109
students' attitudes toward consumers of, in relation to career preferences, 184-192
